Free time spend with family or friends, read a book or in cinema and theater.

Final statement

I am honored that Serbian Society of Radiotherapy Technicians Societies again nominated me for candidate for the ESTRO RTT Alliance elections 2023. My motivation is to continue with excellent cooperation with RTT Committee in aim of improving of RTT position , promote all the benefits that ESTRO membership brings to other colleagues and thus motivate all EU national societies to join ESTRO Alliance and continue with strengthening the relationship between ESTRO RTTC and SEETRO conference .On this way promote important of our position. Research work is crucial for our development, so we must get more technicians interested in that particular segment. I will contribute to ESTRO RTTC board with all the knowledge and experience that I have gained on national and regional levels, as in constant participation in ESTRO activities.
