Personal

I live in Tbilisi Georgia. Have a beautiful family and a son. I love spending quality time with my family and i read a lot. Another hobby of mine is listening to music, i also play classical music on the piano. My absolute passion is Astrology.

Final statement

I see myself as a motivated, responsible, creative, open-minded and trustworthy person. I am a team-player, so i am a person who can work with team as well as make decisions independently and take responsibility for the results. As for the professional and medical education, i am a Radiation Therapist with more than 15+ years of experience. My main goal is to learn everyday something new and be able to spread that knowledge in my home country.
