

Westdeutsches  
Protonentherapiezentrum  
Essen gGmbH

Westdeutsches Protonentherapiezentrum Essen (WPE) gGmbH, a 100% daughter of the renowned University Hospital of Essen, located in the middle of the Ruhrian Region, Germany, is seeking a dynamic and experienced

## Chief Medical Physicist

Responsibilities of the successful candidate include

- Cooperation with industry during the installation as well as operating phase of the proton therapy equipment
- Preparation and execution of the acceptance tests of the proton therapy equipment
- Commissioning of the proton therapy equipment as well as all ancillaries equipment e.g. CT, MRI, positioning devices, transport system
- Implementation and maintenance of patient and facility based quality assurance programs
- Supervision of the physical aspects of clinical treatment including radiation protection issues
- Preparation and further development of treatment planning
- Support of clinical Research Programmes
- Collaboration with the Department of Radiotherapy of the University Hospital of Essen

The successful candidate should be board certified and experienced in proton therapy. Additionally team leadership skills are expected.

WPE provides a fully equipped proton therapy center with a proton beam scanning technology from IBA, three gantries and one combined horizontal and eye-treatment fixed beam room. First patient treatment is scheduled soon. Payment is related to the responsibility of the position and the experience of the successful candidate.

The position is open with immediate effect. WPE is an equal opportunity employer. Women and physically handicapped are particularly encouraged to apply.

For further information and/or a visit please contact Mr Kai Züger under +49 201 723 2324 or [kai.zueger@uk-essen.de](mailto:kai.zueger@uk-essen.de).

The successful candidate should submit informative application documents including desired salary and earliest possible entrance date to
