

LOCUM RADIATION ONCOLOGY PHYSICIST

The Department of Radiation Oncology at Al Amal hospital part of Hamad Medical Corporation in Doha, Qatar is seeking an enthusiastic **locum Radiation Oncology Physicist**. The locum period is to cover the second quarter of 2010. The length of the locum period is negotiable. Salary will be based on the qualifications and experience of the candidate. The package will include tax free salary, free accommodation, and return flights to your point of origin.

The department is equipped with State of the A with CT-Simulator and newly installed Varian Solution including Triology, Varian iX to be installed in April of this year, and paperless environment using Eclipse and ARIA. We are in the process of commissioning BrainLab cone-based SRS solution for our radiosurgery program.

Qatar is a thriving and rapidly growing state with an excellent travel base for those looking to visit the Middle and Far East.

Candidates should have well rounded experience using Varian Linacs, ARIA and Eclipse. SRS experience is a bonus. For more information on this post please contact Mr. Satheesh Paloor at spaloor@hmc.org.qa, interested candidates should email a copy of their updated Curriculum Vitae/Resume to rgatdula@hmc.org.qa

Closing date: March 15, 2010
