

Nuclear Medicine Technologist (Research)

Grade 7 £29,099 to £35,788 per annum

Gray Institute for Radiation Oncology & Biology, University of Oxford

We have an exciting opportunity for a Nuclear Medicine Technologist to join the CRUK/EPSRC Oxford Cancer Imaging Centre based at the Gray Institute for Radiation Oncology and Biology and at the Oxford Cancer Centre.

You will take a lead role in the implementation and conduct of several clinical trials designed to evaluate the role of functional imaging in radiotherapy planning and treatment. You will also assist with the conduct of clinical trials of novel diagnostic and anticancer radiopharmaceuticals.

The successful candidate will have a BSc (Hons) degree or equivalent qualification in Radiography, completed the accredited course in IV injections and have relevant post graduate experience in Diagnostic Imaging. It is essential to be a State Registered Radiographer with the Health Professions Council.

This is a full time post and is available until 30 November 2013 in the first instance.

A detailed job description and details on how to apply are available from our website at www.rob.ox.ac.uk/opportunities or email: recruitment@rob.ox.ac.uk

The closing date for application is Friday 5th August 2011. Applications received after this date will not be considered.
