

Professional Leader Medical Physicist Auckland Regional Cancer & Blood Service, Auckland New Zealand

Lead on...

- Exciting new senior and highly influential clinical leadership role
- Influence the direction of Medical Physics and new technology into the future

The Auckland Radiation Oncology Department is the largest in New Zealand with a modern and busy department operating 6 Varian Linear Accelerators and employing 18.8 Physicists, Registrars and Technicians. Cancer services in the Auckland region are growing and we are looking for a professional leader to lead quality, innovation, research and the development of advanced radiation techniques within the department.

To provide governance and strategic direction to the department the Auckland District Health Board (ADHB) has recently completed a workforce review and we are delighted to announce the establishment of a new, senior leadership role for Physicists.

The Professional Leader for Physicists will be a member of the senior leadership team for Cancer services, partnering with the Clinical Director, Professional Leader Radiation Therapists and the Service Manager to achieve clinical and academic excellence through multidisciplinary collaboration, innovation and strategy. Experience in the seamless implementation of new technologies (i.e. IMRT, IGRT, VMAT and 4D-RT) and a demonstrable history of research publications is highly desirable.

Reporting professionally to the Executive Director Allied Health, Scientific & Technical and operationally to the Clinical Director, this key leadership role is full time, however part time applications not less than 0.6 FTE will be considered.

You must hold an MSc (Medical Physics) or equivalent and have experience in a senior role in a clinical and leadership capacity. Management or business tertiary qualifications are highly desirable. You'll need to be a team player with an ability to work collaboratively with clinicians from other disciplines. A passion for guiding and supporting others is a must as is being a top class communicator. An attractive remuneration package is available for the successful candidate, as well as opportunities for professional support and growth.

Apply online now at www.careers.adhb.govt.nz to **reference number 033947**. By joining us you'll become part of ADHB's lively and well respected Physics workforce!
