

BRACHYTHERAPY

Update on GEC-ESTRO activities 2020 and 2021

Traditionally, the Groupe Européen de Curiethérapie-European Society for Radiotherapy and Oncology (GEC-ESTRO) assembly is held during the annual ESTRO congress. At the occasion, the chair of GEC-ESTRO committee presents the yearly report to the brachytherapy community. This year's gathering felt special, as we were able to meet again face-to-face in Madrid after so many months of online contacts and e-mail conversations. Although not yet back to normal shape and volume, the spirit of the entire annual congress in Madrid was palpable and for sure the community experienced a positive boost in morale.

The brachytherapy community has taken advantage of the current momentum and planned its next meeting. I am happy to announce that the annual GEC-ESTRO workshop will be held onsite in Rotterdam on 18 and 19 November 2021. You can register for the workshop at >>>

For colleagues interested in learning more about GEC-ESTRO and its diverse activities, the following link provides access to the annual report as presented during the recent GEC-ESTRO assembly in Madrid >>>.

Looking forward to meeting some of you at the GEC-ESTRO workshop in Rotterdam!

Ina Jürgenliemk-Schulz
Chair, GEC-ESTRO committee
