

CONFERENCES

16th EANO Meeting

25-26 September 2021, online

Dear friends and colleagues,

As the European Association of Neuro-Oncology's (EANO) top priority is the safety and health of members, meeting participants, speakers, sponsors, exhibitors, and suppliers, the EANO board has decided that the 16th EANO 2021 Meeting will be held virtually due to the COVID-19 pandemic.

Knowing how important our annual meeting is to the field of neuro-oncology in Europe and the patients we serve, it is a great pleasure to announce that the 16th annual EANO meeting will take place virtually from 25-26 September 2021. The Educational Day will be held on 23 October 2021 and will also reflect the new, virtual setting.

Education, scientific research, and development must continue! Therefore, we remain committed to delivering high quality content and state of the art lectures also in an online conference format. The virtual meeting allows participants to join conveniently via computer, laptop, tablet, or smartphone from their home or wherever they are. Talks and presentations will be presented in a mix of live and on-demand sessions. Through our virtual meeting platform, delegates will be able to interact with their peers, view exiting content and actively participate in sessions and symposia.

Make sure to be part of this virtual experience and help us bring the EANO Meeting to the next level. You can find more information and the link to register on this page. The detailed programme is also available on our website. In case of any questions, please contact the organising office at: eano-meetings@eano.eu. You can also follow us on Facebook, Twitter and LinkedIn.

We look forward to welcoming you virtually soon.

On behalf of the EANO board,

Matthias Preusser & Martin van den Bent
EANO President EANO Past-President
