

CONFERENCES

FRPT 2021

1st Flash Radiotherapy and Particle Therapy (FRPT) Conference

1-3 December 2021, Vienna, Austria

Endorsed by ESTRO

FRPT 2021 looks to build a worldwide organisation of scientists and professionals interested in FLASH Radiotherapy (RT) using protons, electrons, heavier charged ions and photons. The Conference aims to gather researchers and students (from academia and industry) with professionals working in clinical oncology, and provide a multidisciplinary forum to discuss the latest developments in FLASH radiotherapy.

Behind this new, innovative conference is the international organising committee of Karen Kirkby (UK), Marie-Catherine Vozenin (CH), Andreas Schüller (DE) and Marie Dutreix (FR).

FRPT 2021 is made possible thanks to the partnership between Institut Curie in Paris, The Centre Hospitalier Universitaire Vaudois in Lausanne, EU EMPIR project, UHdpulse, EU integrating activity, INSPIRE and GSI's international Biophysics Collaboration.
