

CONFERENCES

4th Biennial Global Conference entitled Leading the way in radiography and radiotherapy advanced practice (LTRAP 2023)

17-18 November 2023, Singapore

Endorsed by ESTRO

On behalf of the organising committee, we warmly invite you to join us at **the 4th Biennial Global Conference entitled Leading the way in radiography and radiotherapy advanced practice (LTRAP 2023)**, which will be held in Singapore from 17-18 November. This is an in-person international event that will be held by the Singapore Society of Radiographers (SSR) in partnership with the Society and College of Radiographers (SCoR), the Canadian Association of Medical Radiation Technologists (CAMRT), and the Australian Society of Medical Imaging and Radiation Therapy (ASMIRT). The programme is endorsed by ESTRO.

LTRAP aims to bring together thought leaders and advanced practitioners in the medical radiation sciences from around the world to build a community of practice and to exchange ideas, knowledge, and best practices to promote advances in our professions and to inspire the next generation. More information can be found here [LTRAP](http://www.ltrap2023.com) or simply by scanning the QR code

Conference theme

The theme for this year's event is celebration! There are many things to celebrate, one of which is the resumption of a physical conference here in Singapore!

1. Celebrate achievements: new implementation, new roles, new directions
2. Celebrate collaborations: advanced practitioners, in the international community, collaborative works, and getting them off the ground
3. Celebrate impact: making a difference; physicians and patients share ways in which our advanced practice has made a difference in their lives

The conference is aimed to inspire growth and progress within the radiography/radiotherapy advanced practice community. It is expected to draw local and overseas advanced practice leaders, practitioners, students, and care partners. Several international speakers are invited, supported by our professional partners.

Come and join us as we network with fellow medical imaging and therapy practitioners on international perspectives of advanced practice. Be inspired by our influential keynote speakers and celebrate together as we share our achievements, collaborations, and the impact of advanced practice. Conference registration is **NOW OPEN**

We look forward to seeing you. Please do not hesitate to contact us at admin@LTWRAP2023.com if you require further information. Thank you!

Associate professor Sharon Wong

Chairperson, organising committee
