

## SCIENTIFIC PROGRAMME

### Course Director

Y Lievens  
E Zubizarreta

### Faculty

A Aggarwal  
H Blommestein  
N Defourny  
D Rodin

M Barton  
JM Borrás  
C Grau

### Pre-Course Recorded Lectures

|   |               |
|---|---------------|
| Radiotherapy availability and access: magnitude of the problem    | C Grau        |
| From cancer incidence to radiotherapy needs                       | M Barton      |
| How are such data used to support radiotherapy at national level? | JM Borrás     |
| Radiotherapy costs: provider vs. payer perspective                | Y Lievens     |
| Radiotherapy cost calculation in practice                         | N Defourny    |
| How do economics play a role at departmental level?               | E Zubizarreta |
| How do economics play a role at societal level?                   | H Blommestein |
| Cost-effectiveness and budget-impact analysis in radiotherapy.    |               |
| How can we safeguard investment in radiotherapy?                  | D Rodin       |
| From evidence to practice: how to generate the necessary data?    | A Aggarwal    |

### Live Virtual Session

Date: Saturday 21 November

Time: 13.00-16.00 CET

13.00-14.00 CET – Access to Radiotherapy

- Presenter: E Zubizarreta
- Panelists: A Aggarwal, M Barton, JM Borrás, C Grau, D Rodin

14.00-15.00 CET – Costing in Radiotherapy

- Presenter: Y Lievens
- Panelists: H Blommestein, JM Borrás, N Defourny, D Rodin, E Zubizarreta

15.00-16.00 CET – HTA and VBHC in Radiotherapy

- Presenter: A Aggarwal
- Panelists: H Blommestein, JM Borrás, N Defourny, Y Lievens, D Rodin
