

Reduced Fees for 2020 Courses

ESTRO members working in countries with a less competitive economic background can obtain a reduced registration fee of €350 to participate in live teaching courses organised in Europe.

1.1 Selection criteria

- Only ESTRO members for 2020 are eligible (below is the list of eligible countries).
- Only one course per person per year can be granted.
- We can only guarantee a certain number of reduced fees per course.
- In case the number of applications exceeds the number of places available at reduced fees, priority will be given to:
 - younger members
 - members applying for a course held in their region
- Non-European members need to contact the ESTRO office to check eligibility.

Important note: candidates sponsored by a commercial company are not entitled to reduced fees: only candidates supported by their institute or national society are entitled to this reduced fee.

1.2 How to apply

In order to receive the reduced fees, several conditions apply:

- Candidates must be a 2020 ESTRO member
- Application deadlines are the same as early registration fees (3 months or 5 months before the course date)
- Only one course per person per year can benefit from reduced fees
- Sponsored candidates are not entitled to reduced fees (address on the invoice is from the participant, his/her institute or the national society)

Travel agents should contact education@estro.org

If the criteria are met, applicants should send an email to education@estro.org to register.

1.3 List of eligible countries

- All specialties: Albania, Belarus, Bosnia and Herzegovina, Bulgaria, Croatia, Czech Republic, Estonia,, Greece, Hungary, Latvia, Lithuania, Macedonia, Moldova, Montenegro, Poland, Portugal, Romania, Russian Federation, Serbia, Slovak Republic, Slovenia, Spain, Turkey, Ukraine
- RTTs and physicists only: Cyprus
- RTTs only: Italy

1.4 List of eligible courses

Comprehensive and practical brachytherapy	9-13 February	Brussels	Belgium
Particle Therapy	17-21 February	Trento	Italy
Clinical practice and implementation of image-guided stereotactic body radiotherapy	15-19 March	Prague	Czech Republic
Advanced skills in modern radiotherapy	17-21 May	Vienna	Austria
Dose modelling verification for external beam radiotherapy	17-21 May	Barcelona	Spain
Target volume determination - From imaging to margins	24-27 May	Brussels	Belgium
IMRT/VMAT and Other Highly Conformal Techniques in Practice	24-28 May	Modena	Italy
Evidence based radiation oncology	24-28 May	Bucharest	Romania
Hematological malignancies	14-17 June	Lyon	France
Risk management	14-17 June	Lisbon	Portugal
Brachytherapy for prostate cancer	21-23 June	Manchester	United Kingdom
Particle Therapy			
Physics for modern radiotherapy	6-10 September	Izmir	Turkey
Basic Clinical Radiobiology	12-16 September	Athens	Turkey
Image guided radiotherapy and chemotherapy in gynaecological cancer: focus on MRI based adaptive brahytherapy	12-16 September	Lisbon	Portugal
Dosimetry audits	14-18 September	London	United Kingdom
Advanced treatment planning	20-24 September	Brussels	Belgium
Advanced brachytherapy for physicists	2-6 October	Athens	Greece
Multidisciplinary management of lung cancer	3-5 October	Budapest	Hungary
Image guided radiotherapy in clinical practice	4-8 October	Ljubljana	Slovenia
Imaging for physicists	4-8 October	Brussels	Belgium
Research course in translational radiation biology and oncology	8-11 November	Florence	Italy
Quantitative methods in radiation oncology: models, trials and clinical outcomes	8-11 November	Florence	Italy
MR Guided radiotherapy	8-11 November	Amsterdam	The Netherlands
Multidisciplinary management of head and neck oncology	15-18 November	Madrid	Spain
Accelerated partial breast irradiation	13-16 December	Athens	Greece
