Multidisciplinary Management of Prostate Cancer

17 - 20 October 2021 | Online

Target Audience

The course is aimed at radiation oncologists, urologists, medical oncologists and other specialists and trainees who have a special interest in prostate cancer and are willing to update their knowledge.

Course Aim

This 4-day teaching course aims at focusing on the management of localised, locally advanced and metastatic prostate cancer. It emphasises the importance of a multidisciplinary approach and of teamwork, where full information exchange is vital to provide the best up-to-date scientific evidence on which the management of the disease will be based. This will be illustrated during state-of-the-art lectures presented by experts in the field, covering important issues such as biology, imaging, pathology, therapy and future developments. Interactive case studies and journal clubs will be integrated on a daily basis and there will be ample time for open discussions amongst participants and experts. A special session on target delineation for radiotherapists will also be organised during the course.

Course Overview

Learning outcomes

- To provide an in-depth overview of the epidemiology, pathology, imaging and treatment options for low, intermediate and high risk prostate cancer
- To discuss patient selection/indications and contra-indications for the various treatment options
- To provide a critical overview of the surgical and radiotherapy techniques available for the management of prostate cancer

- To discuss the new drugs currently available for the management of the advanced and metastatic stages of the disease
- To debate on the most recent developments relevant to prostate cancer management.

Course Content

- Epidemiology: lessons from the past, challenges in the future
- Primary surgery: choices and techniques (including oncoplastic)
- Axillary surgery including limitations of the SN concept
- Modern radiation therapy techniques from treatment planning to image guidance

Faculty

Course Directos

Valérie Fonteyne (BE)
Jochen Walz (FR)

Teachers

Ferran Algaba (ES)
Berardino de Bari (CH)
Alfonso Gomez de Iturriaga (ES)
Markus Graefen (DE)
Nicolas Mottet (FR)
Alison Tree (UK)
Geert Villeirs (BE)
