**Frequently Asked Questions**
Dear Industry Partners,

We are pleased to present to you the ESTRO Industry Guide 2022/2023. The guide provides a clear overview of the different opportunities ESTRO offers you to connect with the global radiation oncology community via our congresses, workshops and courses.

The infographics in this guide demonstrate the growing importance of the ESTRO congresses and workshops as platforms for exchange of knowledge, debate and networking around radiation oncology, attracting thought leaders and decision makers from across the globe.

The continued support from our Industry Partners has been instrumental in achieving this success. We hope that this guide will help in further developing our partnership and taking ESTRO’s congresses and workshops to the next level.

This guide covers:

- The ESTRO Corporate Membership
- The 2023 ESTRO Annual Congress
  Vienna, Austria | 12-16 May 2023
- The 2022 ESTRO Courses
- The 2022 ESTRO Workshops
  - ESTRO Physics workshop
    Lisbon, Portugal | 7-8 October 2022
  - GEC-ESTRO workshop
    Nice, France | 1-2 December 2022

We do hope that this guide provides you with all the information required to fully engage with the radiation oncology community and we look forward to continuing our collaboration.

Hande Van Gestel
Exhibition Project Manager
“ESTRO corporate membership offers many opportunities for companies to engage with a continuously growing community of radiation oncology specialists across the globe. It is our ambition to make that engagement evolve into a true partnership in which ESTRO is the bridge between our corporate partners and all the communities involved in radiation oncology.”
### Opportunities for ESTRO corporate members

**ESTRO congresses**  
Both in Europe and Asia, ESTRO congresses attract a growing number of healthcare professionals every year, in order to discuss the current state and future challenges of radiation oncology. As a corporate partner, you will have the opportunity to engage with this global community and truly connect with your target audience.

**ESTRO workshops**  
ESTRO workshops allow radiotherapy specialists to discuss the most recent scientific developments in specific areas before these are published. They are extremely focussed and represent a perfect opportunity to have in-depth engagement with an audience on a specific topic.

**ESTRO courses**  
Organised on a global scale, ESTRO courses are the core of our educational programme. Tens of thousands of healthcare professionals have attended these courses, gaining the knowledge required to take the next step in their professional careers.

* It does not apply to the onsite advertising options. It is only valid for the sponsorship of Congress Material, Super Run and the Stage. If another company shows interest in the sponsorship of these above-mentioned items in the following year, the sponsor of the previous year will be contacted first.
The past two years have been crucial as they presented us with the challenge of giving new momentum to our Society after the shock caused by the Covid-19 pandemic. By building on the lessons learned in 2020 and 2021, and by leveraging the opportunities offered by the digital environment, we were able to offer our community a rich and diverse portfolio of activities.

The ESTRO Annual Congress has been growing steadily over the last decade and attracted a record high number of over 6,633 participants during the 2019 edition in Milan and over 5,600 participants during the 2022 edition in Copenhagen.

The conference programme has been expanded to offer over 230 sessions that fall under the 7 programme disciplines: Brachytherapy, Clinical, Interdisciplinary, Physics, Radiobiology, RTT and Young programmes. The wide range of topics are tackled in various formats, from teaching lectures, symposia, debates and proffered papers, to the newly devised pitch sessions, mini-orals and poster highlights. The focus of the recent changes has been to increase audience interaction and knowledge exchange. The congress is usually accredited with 25 CME hours.

We hope you find the offer described below appealing and are of course open for any suggestions which could make our annual congress an even bigger success.

*A few adjustments can be made later depending on the final program.

Please note that priority in bookings are given to 2023 gold corporate members and then 2023 corporate members. Once the gold and corporate members are placed on the floorplan, the bookings will be open to non-members.

The applications for 2023 ESTRO corporate membership will be launched on **3 October 2022**.

**Venue**

The ESTRO 2023 Annual Congress will be held at:

**Reed Messe Wien**  
Messeplatz 1  
(Entrance Foyer A)  
A-1020, Vienna, Austria  
[www.messecongress.at](http://www.messecongress.at)

Messe Wien Exhibition & Congress Center is centrally located, yet close to Vienna’s famous Prater Park and around the corner from the campus of the new Vienna University of Economics and Business, the Sigmund Freud Private University and the modern, green “Viertel Zwei” business and residential area.

**Ideal transport links**

An underground station is located a stone’s throw away from Entrance A.  
U2: Messe - Prater  
The Vienna International Airport is only 20 minutes away by taxi.

Satellite Symposia

Satellite symposia are the ideal way of engaging with the congress audience and presenting your products and services through a live session in the congress center premises. These symposia are not part of the official scientific programme.

At ESTRO’s annual congress, the satellite symposia are organised during the lunchbreak. Following slots are available:

- Friday 12 May 2023
  - During lunch break
  - Saturday 13 May 2023
  - During lunch break

  **Exclusive slot**
  - €15,000

- Sunday 14 May 2023
  - During lunch break
  - Monday 15 May 2023
  - During lunch break

  - €15,000

* The exclusive satellite symposium slot on Friday is reserved for pharmaceutical companies only.

A satellite symposium includes:
- Rent of the meeting room for the duration of the symposium
- Standard equipment and room set-up
- AV technician
- 1 hostess
- Possibility of roll-up (dimensions 2m*85cm) displayed the morning before your event in the registration area (artwork to be submitted to ESTRO for written approval). The production of the roll-up can either be done by the company or by ESTRO.
- Inclusion of the satellite symposium agenda in the Exhibitor Directory, app and online programme
- Email blast listing the satellite symposium agenda sent by ESTRO prior the congress to pre-registered participants (in accordance with the GDPR policy)

Extra AV and branding packages for your satellite symposium will be provided closer to the event.

*The capacity of the rooms might change slightly depending on the final design of the rooms.*
Advertising opportunities

Below you will find an overview of opportunities to increase your brand visibility during the congress. Please note that each opportunity is offered in exclusivity – your logo will be the only one visible when purchasing one of the opportunities. The only exception are the advertisements in the digital Exhibitor Directory.

If you book a set of items for ESTRO 2023 (at least 3 items or more listed below), you will get a 10% discount on the total amount to be paid.

<table>
<thead>

*Subject to faculty approval

**Live Courses**

For the live courses, we also offer the possibility to sponsor:

- Lanyards
- Pens
- Notepads

These items will be distributed during all the live courses that take place during the year. The relevant booking form can be found [here](#).

**Online Courses**

Here are the opportunities for the online courses:

- Participation in the teaching course*
  
  € 2,500

*The participation of the company is defined by the Course Directors. Promotion of virtual company session by email blasts to participants of the online course is included in the package.

The financial contribution to the online courses includes a complimentary registration for one company delegate. Any additional company delegates will have to pay the regular registration fee.

For more information and pre-registration forms for the courses, you can directly contact:

Hande Van Gestel

*hyilmaz@estro.org*
The ESTRO workshops offer opportunities beyond what ESTRO offers in education meetings and congresses. They aim to facilitate scientific and professional networking opportunities and to create close interaction with developers in companies. The workshops are the perfect forum to share projects in their very initial stage, that would benefit from discussions with colleagues. We believe that by promoting these interactions we will capture scientific development that could be applied and have a real impact on the cure for cancer.

Following workshops are planned for 2022:

1. **2022 ESTRO Physics Workshop**
   7-8 October | Lisbon, Portugal

2. **2022 GEC-ESTRO Workshop**
   1-2 December | Nice, France
**General**

**Format**
- A list of topics is defined by the Physics Committee
- Participants are invited to register for one single topic – the number of participants is limited to stimulate discussion and guarantee interaction
- The workshop itself is a combination of invited talks by leading scientists and interactive participation by the delegates

**Expected outcome**
- Initiatives for new collaborative research
- Joint writing of a scientific paper or guidelines

**Key dates**

*Sponsorship opportunities are also available to companies who do not have a booth space at the workshop.

Venue: Lisbon
Date: 7-8 October 2022
Estimated number of participants: approx. 160
Target audience: Physics Community
### General

**Format**
- Three topics are defined by the Brachytherapy Committee
- Participants are invited to register for one single topic – the number of participants is limited to stimulate discussion and guarantee interaction
- The workshop itself is a combination of invited talks by leading scientists and interactive participation by the delegates

**Expected outcome**
- Initiatives for joint creation of new scientific ideas and workflows, impacting daily practice
- Creation of networks for future collaboration

*This option is available for companies who do not have a booth at the workshop.

Sponsorship opportunities are also available to companies who do not have a booth space at the workshop.
1. How many complimentary badges am I entitled to?

The number of complimentary badges you are entitled to depends on the sqm of your booth. ESTRO offers 3 exhibitor badges per 9 sqm rented.

- Gold Members receive 1 Regular + 2 Full Exhibitor badges per 9 sqm booked.
- Corporate Members receive Regular + 2 Full Exhibitor badges per 9 sqm booked.
- Non-corporate members receive 3 Regular badges per 9 sqm booked.

5. Is it possible to register onsite?

Yes, it is also possible to do your registrations onsite. Please be aware that the prices might change onsite.

6. I need an invitation letter for my visa application. How can I receive it?

To receive a visa invitation letter from ESTRO, first you need to register your delegates who need a visa invitation letter. Once your delegates are registered to the congress, we will prepare an invitation letter including your registration number and send it to you via email. You can contact hyilmaz@estro.org for your visa invitation requests.

2. What is the difference between Full Exhibitor Badge and Regular Exhibitor Badge?

The regular exhibitor badge only gives access to the exhibition whereas the full badge gives access to both exhibition & scientific sessions.

3. How do I register my delegates for the exhibitor badges?

ESTRO will send you an excel file to fill before the event. In this file, you can see the types and number of complimentary badges you are entitled to. Once you fill in this file and send it back to hyilmaz@estro.org, your registration will be processed.

4. In addition to the complimentary badges I receive from ESTRO, how can I order extra exhibitor badges?

When you receive the registration file from ESTRO for the registration of your delegates, you can just add the name of your delegates that need the extra badges and indicate in the file the type of badges you would like (full or regular).

7. Can I receive the pre-registration list?

Yes, it is possible to receive the pre-registration list. However, please keep in mind that ESTRO can no longer share the full list of participants because of GDPR. If you make a request for the pre-registration list, you will only receive the list of people who have given ESTRO their consent to share their contact details with the third parties.

8. Is lunch included in the registration fee?

The lunch is not included in the registration fee.

9. Can I organise meetings/social events during the Congress?

Yes, you can organise your meetings/social events as long as it does not overlap with the scientific programme and you should receive the written approval from ESTRO first. Please make sure to check the scientific programme on our website before planning any kind of events for the participants of the congress.

10. Can I distribute flyers/brochures at the venue?

It is allowed only within the limits of your own booth. Any promotional activity outside your booth is strictly forbidden.

11. Can I provide my own catering in my booth?

You need to receive a written approval from the official catering company. Unless this permission is acquired, the exhibitors cannot provide catering in their booth.

12. How can I place my orders for the exhibition? (furniture, carpet, electricity etc.)

For ESTRO 2023, you can use the exhibitor portal created by Messe. The link will be made available on our website closer to the event.

13. Is ESTRO responsible for the production of the roll-ups for the satellite symposia?

For the ESTRO annual congress, you have two options. You can either produce your own roll-ups for your satellite symposium or you can choose one of the extra branding packages we offer for your session and ESTRO can produce the roll-up for you.

For the other events, the companies are responsible for the production of their own roll-ups.

14. Can we record our demo sessions during the congress?

Yes, exhibitors are allowed to film the activities taking place inside their own booth space. Please make sure to check our media policy on our website for any articles or posts related to the scientific programme or society in general.

15. How long do the sessions remain available on demand on the online congress platform?

The online congress platform remains open at least 3 months after the event and you can have access to all scientific sessions on demand during this period if you are registered as a “full” exhibitor.
