

Team Leader – Sterile Services, Wellington Hospital, New Zealand

Sterile Services are seeking a Team Leader to manage an efficient, effective and high quality service for Wellington and Kenepuru Hospitals.

Your experience in managing people in an operational setting will be essential in ensuring the team is fully focused on achieving set expectations and delivering specialist sterilisation services in our tertiary hospital.

In addition to providing leadership to our dedicated team, you will be accountable for the process and outcome of all stages of the decontamination and sterilisation service. You will manage an efficient and effective high quality service in line with contemporary practices and customer specifications through the use of all resources, elimination of waste, minimisation of risk, and elimination of unnecessary costs.

You will enjoy working with people, motivating and guiding them to work as a tight knit unit and to always give their best. You will be known as someone who is able to get along with a wide range of people from a variety of backgrounds. Your excellent written communication skills will be well utilised for ensuring our standard operating procedures are well documented.

To be considered for this key role, you will have:

- a health based qualification
- sound knowledge of infection control and quality control processes
- strong people management skills and experience, having previously led a team.
- a minimum of five years related sterile processing experience at a leadership/ management level or process and production industries such as medical devices, pharmaceuticals or food is essential.

Wellington is New Zealand's capital, home to the government and a cultural epicentre renowned for its vibrant cafés and restaurants, international sporting and cultural events, and beautiful harbour. It's location at the bottom of the North Island means that there many opportunities for outdoor leisure pursuits in the wider region.
