Combined Drug-Radiation Treatment: Biological Basis, Current Applications and Perspectives

15-18 June 2017
Brussels, Belgium

TARGET GROUP
The course is aimed at radiation oncologists and medical oncologists involved in the multidisciplinary treatment of cancer.

COURSE AIM
Course rationale
Effective cancer treatment necessitates both high efficacy of local treatment and combating sub-clinical systemic disease. Consequently, cancer therapy today involves various combinations of local and systemic treatment modalities. Of those, combining drugs and radiation has been attracting particular attention both in terms of its biological rationale and its potential of increasing the therapeutic outcome. The course aims at updating participants about established and emerging knowledge in this field. It will provide the key-messages that biological and clinical research is bringing to the oncology community nowadays.

Aims
- Updating participants about biological effects of combining drugs and radiation in normal and tumour tissue
- Presenting evidence-based clinical applications of combined modality treatment using drugs and radiation in major human malignancies
- Stimulating case-based discussion on the interdisciplinary treatment of cancer
- Presenting future perspectives for combining drugs and Radiation

LEARNING OUTCOMES
By the end of this course participants should be able to:
- Describe the rationale and mechanisms of action of combined drug radiation treatment in cancer
- Discuss the evidence for combined drug radiation treatment in different tumour sites
- Select patients for combined drug radiation treatment
- Decide on the optimum treatment strategy, sequencing and duration, for different patients
- Decide on the optimum strategy including new drugs (immunotherapy etc.).

COURSE CONTENT
General lectures
- Biologic basis for combining drugs with radiation
- Combining drugs with radiation: quantifying the therapeutic gain
- Combining new drugs with radiotherapy
- Radiation and non-cytotoxic drugs
- Hypoxic cell radiosensitisers
- Alteration of radiotherapy fractionation and concurrent chemotherapy
- Designing clinical trials for combined modality treatments.

Site specific lectures including practical case discussions
- Head and neck cancer
- Non small cell lung cancer
- Small cell lung cancer
- Breast cancer
- Prostate cancer
- Bladder cancer
- Cervical cancer
- Oesophageal cancer
- Gastric cancer
- Rectal cancer
- Anal canal
- Pancreas
- Brain tumours
- Lymphomas.

ROADMAP

MULTIMODAL CANCER TREATMENT

RADIATION ONCOLOGIST, OTHER SPECIALIST

COURSE DIRECTOR
Barbara Jereczek-Fossa (IT)

TEACHERS
Christophe Hennequin (FR)
Giuseppe Curigliano (IT)
Jesper Grau Eriksen, (DK)
Li Tee Tan (UK)
Martin Pruschy (CH)
Umberto Ricardi (IT)
Robert Glynne-Jones (UK)

PROJECT MANAGER
Carolina Goradesky

WORKING SCHEDULE
The course starts on June 15th 2017 at 08:30 and ends on June 18th 2017.

LANGUAGE
The course is conducted in English. No simultaneous translation will be provided.

COURSE ORGANISATION
For any further information please contact ESTRO:
Carolina Goradesky
E-mail: cgoradesky@estro.org
Tel : +32 2 761 06 58 - Fax : +32 2 779 54 94

COURSE VENUE
ESTRO Office
Rue Martin V N°40
1200 Brussels
www.ESTRO.org

TECHNICAL EXHIBITION
Companies interested in exhibition opportunities during this teaching course should contact ESTRO:
Carolina Goradesky
E-mail: cgoradesky@estro.org
Tel : +32 2 761 06 58 - Fax : +32 2 779 54 94

ACCOMMODATION
To book your room, please download the accommodation form from the ESTRO website:
www.estro.org/school
**PREREQUISITES**

Before commencing this course you should:

- Be confident with basic mechanisms of radiotherapy and systemic treatment in oncology
- Know the basic principles of management of solid tumours
- Know different ways of delivering chemotherapy/systemic therapy in combination with radiotherapy.

**TEACHING METHODS**

- 20 hours of lectures
- 5 hours of case discussions
- Presentation and critical discussion of the available evidence, discussion of clinical cases.

**METHODS OF ASSESSMENT**

- MCQ
- Evaluation form.

**KEY WORDS**

Radiotherapy, chemotherapy, combined modality, multidisciplinary approach, organ preservation, radiosensitisation, immunotherapy.

---

**PARTICIPANTS SHOULD REGISTER ONLINE AT: WWW.ESTRO.ORG/SCHOOL**

These pages offer the guarantee of secured online payments. The system will seamlessly redirect you to the secured website of OGONE (see www.ogone.be for more details) to settle your registration fee.

If online registration is not possible please contact us:

**ESTRO OFFICE**

Rue Martin V, 40 • B-1200 Brussels
Tel.: +32 2 775 93 39 • Fax: +32 2 779 54 94
E-mail: education@estro.org

**REGISTRATION FEES**

Please check the early deadline date on our website

* Radiation Therapist (RTT) members are eligible for the in-training fee

The fee includes the course material, coffees, lunches, and the social event. Reduced fees are available for ESTRO members working in economically less competitive countries. Check the eligible countries and the selection criteria on the website of the ESTRO School.

**ESTRO goes green:** Please note that the course material will be available online. No course book will be provided during the courses.

**ADVANCE REGISTRATION AND PAYMENT ARE REQUIRED. ON-SITE REGISTRATION WILL NOT BE AVAILABLE.**

Since the number of participants is limited, late registrants are advised to contact the ESTRO office before payment, to inquire about availability of places. Access to homework and/or course material will become available upon receipt of full payment.

**INSURANCE AND CANCELLATION**

The organiser does not accept liability for individual medical, travel or personal insurance. Participants are strongly advised to take out their own personal insurance policies.

In case an unforeseen event would force ESTRO to cancel the meeting, the Society will reimburse the full registration fees to the participants, ESTRO ESTRO will not be responsible for the refund of travel and accommodation costs.

In case of cancellation, full refund of the registration fee minus 15% for administrative costs may be obtained up to three months before the course and 50% of the fee up to one month before the course. No refund will be made if the cancellation request is postmarked less than one month before the start of the course.
