MULTIDISCIPLINARY MANAGEMENT OF PROSTATE CANCER
22 - 26 May 2016 | Istanbul, Turkey

COURSE DIRECTOR
Alberto Bossi (FR)

CO-CHAIR
Alberto Briganti (IT)

TEACHERS
Ferran Algaba (ES)
Valerie Fonteyne (BE)
Nicolas Mottet (FR)
Marco van Vulpen (NL)
Geert Villeirs (BE)
Jochen Walz (FR)

DELINATE ADMINISTRATOR
Carl Salembier (BE)

LOCAL ORGANISER
Sedat Turkan

PROJECT MANAGER
Mieke Akkers

TARGET GROUP
The course is aimed at radiation oncologists, urologists, medical oncologists and other specialists and trainees who have a special interest in prostate cancer and are willing to update their knowledge.

COURSE AIM
This 5-day teaching course aims at focusing on the management of localised, locally advanced and metastatic prostate cancer. It emphasises the importance of a multidisciplinary approach and of teamwork, where full information exchange is vital to provide the best up-to-date scientific evidence on which the management of the disease will be based. This will be illustrated during state-of-the-art lectures presented by experts in the field, covering important issues such as biology, imaging, pathology, therapy and future developments. Interactive case studies and journal clubs will be integrated on a daily basis and there will be ample time for open discussions amongst participants and experts. A special session on target delineation for radiotherapists will also be organised during the course.

LEARNING OUTCOMES
• To provide an in-depth overview of the epidemiology, pathology, imaging and treatment options for low, intermediate and high risk prostate cancer
• To discuss patient selection/indications and contra-indications for the various treatment options
• To provide a critical overview of the surgical and radiotherapy techniques available for the management of prostate cancer
• To discuss the new drugs currently available for the management of the advanced and metastatic stages of the disease
• To debate on the most recent developments relevant to prostate cancer management.

COURSE CONTENT
Sunday 22 May 2016
• Normal prostate: anatomy – embryology, histology
• Prostate cancer: epidemiology and prevention, clinical diagnosis, imaging modalities pathology, staging
• Case discussions.

Monday 23 May 2016
• Low risk prostate cancer: active surveillance, surgery and the postop pathology
• Radiotherapy and brachytherapy, the pathology after irradiation
• External beam RT: on-line control, target delineation
• Case discussions.

Tuesday 24 May 2016
• High risk prostate cancer: RT and hormones, alternative RT regimens

Wednesday 25 May 2016
• Toxicity of RT: acute and late morbidity – erectile dysfunction
• Role of surgery and its morbidity
• Alternative treatments
• Case discussions and Journal Club.

Thursday 26 May 2016
• Metastatic prostate cancer: hormones and their complications
• Castration resistant prostate cancer: new drugs
• Palliative radiotherapy and surgery
• Non systemic treatment in the metastatic setting.

PREREQUISITES
Before commencing this course participants should:
• Revise the general principles of prostate cancer epidemiology, pathology, diagnosis and staging
• Read the published ESTRO and ASTRO guidelines on prostate contouring and the EAU (European Association of Urology) guidelines on prostate cancer
• Complete the FALCON* exercise which is distributed prior to the course.

TEACHING METHODS
• 21 hours lectures
• 3 hours contouring
• 4 hours practical workshops
• 5 hours interactive discussions.

The course consists of didactic lectures, interactive sessions (clinical case discussions and Journal Clubs) and practical demonstrations...
METHODS OF ASSESSMENT
• MCQ
• Delineation exercise
• Evaluation form.

KEY WORDS
Prostate cancer management, surgery, radiotherapy.

WORKING SCHEDULE
The course starts on Sunday 22 May 2016 at 09:00 and ends on Thursday 26 May 2016 at 13:00.
To be able to start on time, participants are encouraged to register on Saturday 21 May from 17:00 to 19:00.

LANGUAGE
The course is conducted in English. No simultaneous translation will be provided.

PRACTICAL ORGANISATION
Course organisation
For any further information please contact ESTRO:

*Radiation Therapist (RTT) members are eligible for the in-training fee

The fee includes the course material, coffees, lunches, and the social event.

Reduced fees are available for ESTRO members working in economically less competitive countries. Check the eligible countries and the selection criteria on the website of the ESTRO School.

ESTRO goes green: Please note that the course material will be available online. No course book will be provided during the courses.

ADVANCE REGISTRATION AND PAYMENT ARE REQUIRED. ON-SITE REGISTRATION WILL NOT BE AVAILABLE. Since the number of participants is limited, late registrants are advised to contact the ESTRO office before payment, to inquire about availability of places. Access to homework and/or course material will become available upon receipt of full payment.

INSURANCE AND CANCELLATION
The organiser does not accept liability for individual medical, travel or personal insurance. Participants are strongly advised to take out their own personal insurance policies.
In case an unforeseen event would force ESTRO to cancel the meeting, the Society will reimburse the full registration fees to the participants, ESTRO ESTRO will not be responsible for the refund of travel and accommodation costs.
In case of cancellation, full refund of the registration fee minus 15% for administrative costs may be obtained up to three months before the course and 50% of the fee up to one month before the course. No refund will be made if the cancellation request is postmarked less than one month before the start of the course.
