TARGET GROUP
The course is aimed at all professionals in the field of radiation oncology, who are involved in the clinical practice of SBRT and cranial SRS at any point in the treatment chain: radiation oncologists, physicists and radiation technologists with a dedicated focus on SBRT and SRS. The course targets both individuals, who are currently at the planning stage of establishing a clinical stereotactic program as well as individuals, who already have a running stereotactic practice. A special focus will be the importance of integrating all professionals into a team.

EDUCATIONAL PROGRAMME
This 5-day ESTRO teaching course shall support establishing and further developing a clinical stereotactic program. The following items will be covered with special focus on special requirements in SBRT:
- Radiobiology of hypo-fractionated, inhomogeneous dose distributions for normal tissue and cancer cells
- Uncertainties in clinical practice of SBRT and SRS
- Radiobiological and technological means for compensation of these uncertainties at all stages of radiotherapy treatment
- Evidence-based clinical practice of SBRT and potential indications for SBRT
- Requirements for building and further development of a clinical stereotactic program

On Sunday a historical background of stereotactic radiotherapy will be given followed by the radiobiological and technological background; different technological platforms will be demonstrated. A debate will discuss the fast spread of stereotactic radiotherapy in our community. The teaching lectures on Monday will review and discuss the technology and physical practice of SBRT and SRS, on Tuesday, various clinical aspects will be discussed and SBRT for early stage NSCLC be reviewed in detail. In all teaching lectures, we will focus on the multi-disciplinary character of SBRT. Interaction and discussion between the professional groups is highly encouraged. Workshops will be organized on Wednesday, which will focus on different tumors sites: a practical approach to these indications will be demonstrated by case presentations and discussions. The last day will focus on the establishment of a clinical stereotactic program and end with a panel discussion.

WORKING SCHEDULE
The course starts on 07th of September 2014 at 9:00 and ends on 11th of September at 13:00. To be able to start on time, participants are encouraged to register on 06th of September from 16:00 to 18:00.

LANGUAGE
The course is conducted in English. No simultaneous translation will be provided.

PRACTICAL ORGANISATION

COURSE ORGANISATION
For any further information please contact ESTRO:
Carolina Goradesky
cgoradesky@estro.org
+32 2 761 06 58
+32 2 779 54 94

COURSE VENUE
Convitto della Calza
Piazza Della Calza 6 Florence
FL 50125 Italy
www.calza.it/en/home.html

LOCAL ORGANISER
Lorenzo Livi, Radiation Oncologist, University of Florence
lorenzo.livi@unifi.it

TECHNICAL EXHIBITION
Companies interested in exhibition opportunities during this teaching course should contact:
Carolina Goradesky, Project Manager
cgoradesky@estro.org
+32 2 761 06 58
+32 2 779 54 94

ACCOMMODATION
To book your room, please download the accommodation form from the ESTRO website: www.estro.org/school

PARTICIPANTS SHOULD REGISTER ONLINE AT: WWW.ESTRO.ORG/SCHOOL
These pages offer the guarantee of secured online payments. The system will seamlessly redirect you to the secured website of OGONE (see www.ogone.be for more details) to settle your registration fee.

If online registration is not possible please contact us:

* RTT members are eligible for the in training fee

The fee includes the course material, coffees, lunches, and the social event.

REDUCED FEES are available for ESTRO members working in economically less competitive countries. Check the eligible countries and the selection criteria on the website of the ESTRO School.

ESTRO GOES GREEN - Please note that the course material is now distributed onsite on a USB key. No printed course book will be provided during the courses.

ADVANCE REGISTRATION AND PAYMENT ARE REQUIRED. ON-SITE REGISTRATION WILL NOT BE AVAILABLE.
Since the number of participants is limited, late registrants are advised to contact the ESTRO office before payment, to inquire about availability of places. Access to homework and/or course material will become available upon receipt of full payment.

INSURANCE AND CANCELLATION
The organiser does not accept liability for individual medical, travel or personal insurance. Participants are strongly advised to take out their own personal insurance policies.

In case an unforeseen event would force ESTRO to cancel the course, the Society will reimburse the full registration fees to the participants. ESTRO will not be responsible for the refund of travel and accommodation costs.

In case of cancellation, full refund of the registration fee minus 15% for administrative costs may be obtained up to three months before the course and 50% of the fee up to one month before the course. No refund will be made if the cancellation request is postmarked less than one month before the start of the course.
