MULTIDISCIPLINARY MANAGEMENT OF HEAD AND NECK CANCER
14 - 17 June 2015 | Beijing, China

COURSE DIRECTORS
Vincent Gregoire (BE)
Jean-Louis Lefebvre (FR)
Lisa Licitra (IT)

TEACHERS
Eric Lartigau (FR)
Anne Lee (CH)
René Leemans (NE)
Jean-Pascal Machiels (BE)
Piero Nicolai (IT)
Frank Pameijer (NL)

LOCAL ORGANISER
Jing Jin

PROJECT MANAGER
Gabriella Axelsson

TARGET GROUP
The course is meant for specialists and trainees with interest and expertise in head and neck surgery (head and neck surgeons, oto-rhino-laryngologists, maxillo-facial surgeons, reconstructive surgeons, etc.), radiation oncologists, medical oncologists, and other medical specialties involved in the treatment of patients with head and neck cancer.

COURSE AIM
Over the last decade tremendous progress has been made in the management of patients with head & neck cancer. Progress has been made in the understanding of the pathogenesis of head and neck malignancies which rapidly leads to the elaboration of tailored treatments. Functional imaging has emerged as a complementary modality to anatomic imaging methods for better staging, treatment response evaluation and optimal treatment targeting. Surgery has significantly improved, in particular with better reconstruction techniques reducing the limits of operability. Randomised studies have demonstrated the increasing role of combined modality approaches with chemotherapy and biological targeted therapies. New radiation techniques, expected to impact on survival and quality of life of head and neck patients, have taken off and are being validated. In this framework, ESTRO, ESMO and EHNS have decided to join forces to organise this multidisciplinary course aiming at promoting an integrated approach to the diagnosis, staging, treatment and follow-up of patients with head and neck malignancies. The course will be interactive through integration of multidisciplinary lectures and more focused workshops. The faculty includes renowned European experts involved in the multidisciplinary treatment of head and neck cancer.

LEARNING OUTCOMES
By the end of this course participants should be able to:
- understand the evolving concepts of head and neck epidemiology and tumour biology, with special focus on squamous cell histotype. Rare histotypes will be also included
- interpret complex head and neck imaging for the purpose of treatment decision making and therapy
- make judgements regarding multidisciplinary reasoning and management of tumours in the light of alternative and sometime competing treatment options including surgery and the role of systemic and targeted therapies
- make judgments about the availability of evidences for treatment recommendations
- understand the challenges of supportive care
- understand the principles and practice of modern radiotherapy.

COURSE CONTENT
- Anatomy (clinical and radiologic aspects)
- Incidence, pathology, risk factors (including HPV) of head and neck tumors
- Clinical work-up for oral cavity and pharyngo-laryngeal tumors, and staging
- “Organ preservation” approach
- Rationale for unconventional radiotherapy fractionation, hypoxic sensitizers, concomitant chemo, EGFR inhibitors and new targeted agents
- Management of oral cavity tumors: medical oncology, surgery and radiotherapy (including brachytherapy)
- Management of nasopharyngeal carcinoma
- Management of oropharyngeal tumors: medical oncology, surgery and radiotherapy (including brachytherapy)
- Management of hypopharyngeal and laryngeal tumors: surgery, radiotherapy and medical oncology chemotherapy approach
- Management of the neck nodes
- Concepts behind selection and delineation of target volumes in radiotherapy
- Morbidity (acute and late) of treatment
- Supportive care during and after treatment
- Metastatic disease
- Management of recurrent tumors
- Second primary tumors.

PREREQUISITES
Participants should have a medical degree with strong interest in head and neck tumour management from the radiation oncology, medical oncology or head and neck surgery point of view.

TEACHING METHODS
- 20 lecture hours
- 5 case discussion hours
- Delineation exercises
The course consists of didactic lectures, contouring workshops and interactive discussion sessions.

METHODS OF ASSESSMENT
- MCQ
- Delineation exercise/s
- Evaluation form

KEY WORDS
Multidisciplinary head and neck oncology, evidence based medicine.

WORKING SCHEDULE
The course starts on 14 June 2015 at 09:00 and ends on 17 June at 17:45.

LANGUAGE
The course is conducted in English. Simultaneous translation into Chinese will be provided.
PRACTICAL ORGANISATION

COURSE ORGANISATION
For any further information please contact ESTRO:
Gabriella Axelsson
E-mail: gaxelsson@estro.org
Tel: +32 2 761 06 51
Fax: +32 2 779 54 94

COURSE VENUE
KINGWING hotel
No.17 Dongsanhuan South Road,
ChaoYang District, Beijing.
www.kingwing.com.cn/en

LOCAL ORGANISER
Jing Jin
Radiation Oncologist
Cancer Research Institute CAMS Chaoyangqu Panjiaya
Beijing (CN)
jingjin1025@163.com

TECHNICAL EXHIBITION
Companies interested in exhibition opportunities during this teaching course should contact ESTRO:
Gabriella Axelsson
E-mail: gaxelsson@estro.org
Tel: +32 2 761 06 51
Fax: +32 2 779 54 94

ACCOMMODATION
To book your room, please download the accommodation form from the ESTRO website: www.estro.org/school

www.estro.org/school

This course is using the FALCON platform for the contouring exercises

PARTICIPANTS SHOULD REGISTER ONLINE AT: WWW.ESTRO.ORG/SCHOOL

These pages offer the guarantee of secured online payments. The system will seamlessly redirect you to the secured website of OGONE (see www.ogone.be for more details) to settle your registration fee.

If online registration is not possible please contact us:
ESTRO OFFICE
Rue Martin V, 40 • B-1200 Brussels
Tel.: +32 2 775 93 39 • Fax: +32 2 779 54 94
E-mail: education@estro.org

REGISTRATION FEES
Please check the early deadline date on our website

*Radiation Therapist (RTT) members are eligible for the in-training fee

The fee includes the course material, coffees, lunches, and the social event.

Reduced fees are available for ESTRO members working in economically less competitive countries. Check the eligible countries and the selection criteria on the website of the ESTRO School.

ESTRO goes green: Please note that the course material will be available online. No course book will be provided during the courses.

ADVANCE REGISTRATION AND PAYMENT ARE REQUIRED. ON-SITE REGISTRATION WILL NOT BE AVAILABLE.

Since the number of participants is limited, late registrants are advised to contact the ESTRO office before payment, to inquire about availability of places. Access to homework and/or course material will become available upon receipt of full payment.

INSURANCE AND CANCELLATION
The organiser does not accept liability for individual medical, travel or personal insurance. Participants are strongly advised to take out their own personal insurance policies.

In case an unforeseen event would force ESTRO to cancel the meeting, the Society will reimburse the full registration fees to the participants, ESTRO ESTRO will not be responsible for the refund of travel and accommodation costs.

In case of cancellation, full refund of the registration fee minus 15% for administrative costs may be obtained up to three months before the course and 50% of the fee up to one month before the course. No refund will be made if the cancellation request is postmarked less than one month before the start of the course.
